The goal for my IB project is to inform others about voting, voter suppression, and voter engagement.

Identities and relationships	Orientation in space and time	Personal and cultural expression

Voting is a right that every citizen of the United States has, which connects to the Global Context of Fairness and Development, so the global context is connected because voting is giving people “access to equal opportunities” and it’s a “right and responsibility” of every US citizen.

Developing the Proposal for Action

Overview of the planned service action (40 points)- What do you plan to do and how does it support your goal? Please be specific. (**minimum 4 complete sentences**):

I plan to write postcards to Georgia voters in order to get them out the vote for the Georgia senate runoff election. The postcards are from the Religious Action Center of Reform Judaism, but the content is nonpartisan. This supports my goal because when they get the postcards, they will know about the runoff election. Hopefully, this will encourage people to participate in the election, which is imperative to our democracy.

Predict your impact (10 points)- If I... then the impact will be... (**1 complete sentence**):

If I educate other people about voting, voter suppression and voter engagement, then the impact will be that they can educate more people, and all of them will better understand the importance of voting.

What are your two variables you will be using to measure your success? (5 points each)

When in doubt, ask your math teacher! :-) (ex: money & days, views & days, packages & minutes, etc.)

X: Hours (spent writing postcards)

Y: Number of Postcards Written
